

MEC POWDER BUSHINGS - #36 POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at www.mecreloaders.com

MEC Powder Bushings #36 Safety Instruction Guide

Introduction

Thank you for choosing the MEC Powder Bushings #36. This guide provides important safety information and instructions to ensure the safe and effective use of this product. Please read and follow these guidelines carefully.

General Safety Guidelines

- Always use the MEC Powder Bushings in accordance with the manufacturer's instructions.
- Ensure that the workspace is clean, dry, and free from distractions while loading powder.
- Keep the powder bushings out of reach of children and pets.
- Use a scale to check powder weights for accuracy.
- Regularly inspect the bushings for damage or wear before each use.
- In case of any accidents or unsafe conditions, report them to the relevant authorities.

Specific Safety Precautions for Use

- Ensure that you are using the correct bushing size for your specific powder load.
- Do not exceed the recommended powder load as indicated by the powder charts.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and a dust mask, when handling powders.
- Avoid inhaling powder dust or fumes.
- Do not eat, drink, or smoke while handling powder or using the bushings.
- In case of skin contact with powder, wash the affected area thoroughly with soap and water.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is securely mounted and stable.
- Select the appropriate MEC powder bushing size for your desired powder load.
- Insert the bushing into the designated slot on the reloading press, ensuring a snug fit.
- Check that the bushing is properly seated before proceeding.

2. Usage:

- Before starting, verify that the reloading press is empty and clean.
- Set the scale to zero and place the container for the powder on the scale.
- Pull the handle of the reloading press to dispense the powder through the bushing.
- Weigh the dispensed powder and adjust the bushing as necessary to achieve the desired weight.
- Repeat the process until the correct powder load is achieved.

Disposal Instructions

- Dispose of any unused or excess powder according to local regulations.
- Recycle the packaging materials whenever possible.
- Do not dispose of powder in regular household waste or down the drain.

Contact Information for Further Support

For any questions or concerns regarding the MEC Powder Bushings #36, please refer to the MEC website or contact the appropriate customer support channels.

Thank you for your attention to these safety guidelines. Your safety is our priority.
