

# STANDARD BULLET SEATING MICROMETERS - REDDING #24

## STANDARD BULLET SEATING MICROMETER

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

Redding Competition Seating Dies deliver the precision and accuracy preferred by the most discriminating handloaders. Now you can easily convert your conventional seating die to a precision micrometer seating die for use with STD (standard) bullets for precise, repeatable bullet seating depths to within 1/1000th of an inch and potential world-record accuracy. Designed for all seating dies that use a seat plug with 1/2-20 threads. Easily changes from one die to another, just match the number on your current seating plug to the corresponding bullet seating micrometer number. View Redding Micrometer Reference Chart here.

# Safety Instruction Guide for Redding #24 Standard Bullet Seating Micrometer

## Introduction

Thank you for choosing the Redding #24 Standard Bullet Seating Micrometer. This product is designed to enhance the precision and accuracy of your bullet seating process. To ensure your safety and the optimal performance of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Ensure that the product is used according to the manufacturer's instructions.
- Always handle the micrometer with care to avoid damage.
- Keep the micrometer and its components out of reach of children and vulnerable individuals.
- Regularly inspect the micrometer for any signs of wear or damage before use.
- If you notice any defects or malfunctions, discontinue use immediately and contact the manufacturer for assistance.
- Store the micrometer in a dry, safe place when not in use to prevent damage.

## Specific Safety Precautions for Use

- Use the micrometer only with compatible seating dies that have a  $\frac{1}{2}20$  thread seat plug.
- Avoid applying excessive force when adjusting the micrometer to prevent damage.
- Do not attempt to modify the micrometer or use it for any purpose other than its intended use.
- Always wear appropriate safety gear, such as safety glasses, when using this product.
- Be aware of your surroundings and ensure that the work area is clear of hazards.

## Instructions for Installation and Usage

### 1. Installation:

- Identify the seating plug on your current seating die.
- Match the number on your seating plug to the corresponding bullet seating micrometer number.
- Carefully remove the existing seating plug from the die.
- Install the Redding micrometer by screwing it into the die using the  $\frac{1}{2}20$  threads.
- Ensure that the micrometer is securely fastened before use.

### 2. Usage:

- Adjust the micrometer to set the desired bullet seating depth.
- Make incremental adjustments to achieve precise seating depths within 1/1000th of an inch.
- After seating, check the bullet depth with a caliper to ensure accuracy.
- Repeat the process as necessary for consistent results.

## Disposal Instructions

- Dispose of the product and its components in accordance with local regulations.
- Do not dispose of the micrometer in regular household waste.
- If the product is damaged or no longer needed, consider recycling materials where possible.

## **Contact Information for Further Support**

For any inquiries regarding safety or product information, please refer to the manufacturer's contact details provided with your product packaging.

By following these safety instructions, you can ensure a safe and effective experience with your Redding #24 Standard Bullet Seating Micrometer. Thank you for your attention to safety and compliance.
