

ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

8X68S MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

Attributes

- Name: [FORSTER PRODUCTS, INC. 8X68S MICROMETER SEATER DIE](#)

ULTRA™ MICROMETER SEATER DIES FORSTER PRODUCTS, INC. Safety Instruction Guide

Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES from Forster Products, Inc. This guide provides essential safety instructions to ensure the safe and effective use of your reloading dies. Please read this document carefully and follow all instructions to avoid hazards and ensure optimal performance.

General Safety Guidelines

- Always handle reloading dies with care to prevent injury.
- Keep the dies out of reach of children and vulnerable individuals.
- Ensure that your reloading area is welllit and free from distractions.
- Use personal protective equipment (PPE), such as safety glasses and gloves, when reloading.
- Be aware of your surroundings and ensure that no one is in close proximity while you are reloading.
- Regularly inspect your equipment for wear and damage.
- Follow all manufacturer instructions and guidelines for use.

Specific Safety Precautions for Use

• Potential Hazards:

- Improper handling of the dies can lead to personal injury.
- Incorrect adjustments may result in unsafe ammunition.
- Reloading with damaged or worn dies can cause malfunctions.

• Instructions for Avoiding Hazards:

- Always ensure that the dies are properly secured before use.
- Do not exceed the recommended settings when adjusting the micrometer.
- Keep fingers and hands clear of moving parts during operation.
- Use the dies only for the intended cartridge type (8 x 68 S).
- Store the dies in a safe, dry place when not in use.

• Age or Audience Specific Warnings:

- This product is intended for use by adults only. Ensure that minors do not have access to reloading equipment.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is compatible with the Forster Ultra Micrometer Seater Die.
- Secure the die in the press according to the manufacturer's instructions.
- Tighten the Forster Cross Bolt Die Locking Ring to prevent movement during operation.

2. Usage:

- Adjust the micrometer to the desired bullet seating depth, ranging from .0005 inch to .001 inch increments.
- Insert the bullet into the die and ensure it is properly seated.

- Operate the press smoothly to avoid jamming or damage.
- After use, return the micrometer to your previous recorded setting for future reference.

Disposal Instructions

- Dispose of any damaged or worn dies according to local regulations.
- Do not throw away the dies in regular household waste.
- Contact your local waste management facility for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the contact information provided in the product packaging or visit the Forster Products, Inc. website.

By following the instructions and guidelines provided in this document, you can ensure a safe and effective reloading experience with your ULTRA™ MICROMETER SEATER DIES. Always prioritize safety and compliance with local regulations when using reloading equipment. Thank you for your attention to these important safety instructions.
