

STEEL NECK SIZING BUSHINGS - RCBS STEEL NECK BUSHING .291

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Can't Load With RCBS GMM Dies Without One

RCBS Steel Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match sizing dies. Using a precisely fitted Steel Neck Bushing reduces work hardening of the case neck brass, prolonging case life and helping to improve accuracy. Self-centering for proper alignment with case neck For best results, the use of high-end brass with consistent neck thicknesses is recommended Bushings come "in-the-white" - bare steel - so traditional case lubrication is required For use ONLY with RCBS Gold Medal sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Steel Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [RCBS STEEL NECK BUSHING .291](#)
- Manufacturer: [RCBS](#)
- Product no.: 749014084
- Mfr. No.: 81606
- Diameter (Breech): -
- Diameter (in): .291
- Delivery weight: 0.113kg
- UPC: 076683816061

Safety Instruction Guide for RCBS Steel Neck Sizing Bushings

Introduction

Thank you for choosing RCBS Steel Neck Sizing Bushings. These bushings are designed to enhance your reloading experience by providing precise neck tension for improved accuracy. This guide contains important safety information and instructions to ensure safe and effective use of this product.

General Safety Guidelines

- Ensure safe use of this product by following all provided instructions.
- Be aware that this product is intended for use with RCBS Gold Medal Match sizing dies only.
- Always handle reloading equipment and components with care to prevent accidents.
- Keep all reloading tools and components out of reach of children and vulnerable individuals.
- Regularly check for product recalls and safety updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, such as safety glasses, when reloading.
- Do not exceed the recommended specifications for neck bushing size.
- Ensure that your working area is clean, organized, and welllit.
- Use only highquality brass with consistent neck thickness for best results.
- Avoid using bushings that show signs of wear or damage.
- Never use the bushings for any purpose other than intended.

Instructions for Installation and Usage

1. Selecting the Correct Bushing:

- Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003" for proper neck tension.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

2. Installation:

- Ensure that your RCBS Gold Medal Match sizing die is clean and free from debris.
- Insert the selected steel neck bushing into the sizing die according to the manufacturer's instructions.
- Secure the bushing in place, ensuring it is properly seated.

3. Usage:

- Lubricate cases with traditional case lubrication before sizing.
- Feed the case into the sizing die with the installed bushing.
- Follow standard reloading procedures to ensure proper sizing and neck tension.

4. Maintenance:

- Clean the bushings regularly to remove any residue or debris.
- Store bushings in a dry place to prevent rust and damage.

Disposal Instructions

- Dispose of any damaged or worn bushings according to local regulations.
- Recycle materials when possible. Check with your local waste management authority for proper disposal methods.

Contact Information for Further Support

For further information or safety inquiries, please refer to the EU contact point for product safety.

By following these guidelines, you can ensure that your use of RCBS Steel Neck Sizing Bushings is safe and effective. Thank you for your commitment to safe reloading practices.
