

TYPE S BUSHING NECK DIES - REDDING TYPE S BUSHING NECK DIE 28 NOSLER

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

Safety Instruction Guide for TYPE S BUSHING NECK DIES REDDING TYPE S BUSHING NECK DIE 28 NOSLER

Introduction

Thank you for choosing the TYPE S BUSHING NECK DIES REDDING TYPE S BUSHING NECK DIE 28 NOSLER. This guide provides essential safety information and usage instructions to ensure safe and effective operation of the product. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses, when reloading ammunition.
- Keep the product out of reach of children and unauthorized users.
- Inspect the product for any damage or wear before use. Do not use if damaged.
- Store the product in a cool, dry place away from direct sunlight and moisture.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Handle all reloading components with care to avoid accidents.
- Follow the manufacturer's instructions for adjusting the bushing and decapping rod.
- Do not exceed recommended sizing bushing increments to avoid damaging the case neck.
- Ensure that the resizing bushing is properly seated before use to maintain concentricity.
- Use the decapping rod only for its intended purpose; do not force it if it encounters resistance.
- Be cautious when resizing only a portion of the neck length; ensure that the bushing is positioned correctly.
- Ensure that all tools and equipment are in good working order before starting the reloading process.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and materials, including the Redding Type S Bushing Neck Die, sizing bushings, decapping rod, and cases.
- Ensure that your work area is clean and free of clutter.

2. Installation of the Die

- Thread the Type S Bushing Neck Die into your reloading press according to the manufacturer's specifications.
- Adjust the die height to ensure proper alignment with the shell holder.

3. Selecting the Sizing Bushing

- Choose the appropriate sizing bushing based on your desired neck tension. Available bushings are in .001" increments.
- Insert the selected bushing into the die.

4. Adjusting the Decapping Rod

- Loosen the decapping rod lock nut and adjust the rod to the desired position.
- Ensure that the decapping pin is properly aligned with the flash hole of the case.

5. Reloading Process

- Place a case into the shell holder and raise the press handle to size the neck.
- If resizing only a portion of the neck, ensure the bushing is positioned correctly.
- Lower the handle to complete the resizing process.

6. PostUse Care

- After use, clean the die and bushing to remove any debris or residue.
- Store the die and components in a protective case to prevent damage.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of reloading materials in regular trash; check for local hazardous waste disposal options.
- Ensure that all components are stored safely until disposal.

Contact Information for Further Support

For any inquiries or additional support regarding the TYPE S BUSHING NECK DIES REDDING TYPE S BUSHING NECK DIE 28 NOSLER, please refer to the manufacturer's website or customer service resources.

Thank you for your attention to these safety instructions. Safe reloading practices ensure not only your safety but also the quality of your ammunition.
