

COMPETITION BUSHING NECK DIES - REDDING COMPETITION BUSHING NECK DIE 26 NOSLER

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Similar in design concept to Reddings Competition Seating Die, the cartridge case is completely supported and aligned with the sizing bushing before the sizing process begins. As the sizing process starts, the cartridge case remains supported in the tightly chambered, sliding sleeve as it moves upward while the resizing bushing self-centers on the case neck. The decapping rod is maintained in precise alignment by using the internal parts of the die as a linear support much like that of a firing pin. Meanwhile, the micrometer adjustment of the bushing position delivers precise control to the desired amount of neck length to be sized. These dies were designed for use by Competition Shooters who have meticulously prepared their cartridge cases and do not wish to use a sizing button, however, carbide size button kits are available separately. Bushings and shellholders sold separately

Attributes

- Name: [REDDING COMPETITION BUSHING NECK DIE 26 NOSLER](#)
- Manufacturer: [REDDING](#)
- Product no.: 749015877
- Mfr. No.: 56261

Safety Instruction Guide for Redding Competition Bushing Neck Die 26 Nosler

Introduction

Thank you for choosing the Redding Competition Bushing Neck Die for your reloading needs. This guide provides essential safety instructions and information to ensure the safe and effective use of this product. Please read this manual carefully before using the die.

General Safety Guidelines

- Ensure the die is used only for its intended purpose: resizing the necks of cartridge cases for 26 Nosler.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when using reloading equipment.
- Keep the workspace clean and organized to prevent accidents.
- Store the die and all reloading components out of reach of children and unauthorized persons.
- Regularly inspect the die and associated equipment for signs of wear or damage before use.

Specific Safety Precautions for Use

- Do not attempt to modify the die or its components in any way.
- Always follow the manufacturer's instructions for setup and operation.
- Use only the recommended bushings and shellholders for optimal performance.
- Ensure that the cartridge case is fully supported before beginning the resizing process.
- Avoid using the die with cases that show signs of excessive wear, damage, or defects.
- If you experience any unusual resistance during the resizing process, stop immediately and inspect the die and case for issues.

Instructions for Installation and Usage

1. Setup:

- Secure the die in a reloading press according to the manufacturer's instructions.
- Ensure the die is properly aligned and tightened to prevent movement during use.

2. Adjusting the Bushing:

- Use the micrometer adjustment to set the desired neck length for resizing.
- Make small adjustments and test with a case to confirm the correct setting.

3. Resizing Process:

- Insert the cartridge case into the sliding sleeve of the die.
- Ensure the case is fully supported and aligned with the sizing bushing.
- Gradually raise the press handle to begin the resizing process, allowing the bushing to selfcenter on the case neck.
- Once the resizing is complete, lower the press handle and remove the resized case.

4. Decapping:

- The decapping rod will automatically align with the case as part of the resizing process. Ensure it is functioning correctly before use.

5. PostUse Care:

- Clean the die after each use to prevent buildup of debris and ensure consistent performance.
- Store the die in a protective case or container to prevent damage.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the die or any reloading components in regular household waste.
- Contact local recycling centers for proper disposal methods for metal and plastic components.

Contact Information for Further Support

For any questions or concerns regarding the Redding Competition Bushing Neck Die, please refer to the manufacturer's contact information provided with the product. It is important to have access to support for any safety inquiries or product issues.

Reporting Unsafe Products

- If you encounter any unsafe products or accidents, report them to the appropriate authorities.
- Keep informed about recall updates by checking the EU's Safety Gate platform regularly.

By following these guidelines and instructions, you can ensure a safe and effective reloading experience with your Redding Competition Bushing Neck Die. Thank you for your attention to safety and for choosing our product.
