

# TYPE S BUSHING NECK DIES - REDDING 30 NOSLER TYPE S NECK DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired. Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

# Safety Instruction Guide for TYPE S BUSHING NECK DIES REDDING 30 NOSLER TYPE S NECK DIE

## Introduction

Thank you for choosing the TYPE S BUSHING NECK DIES REDDING 30 NOSLER TYPE S NECK DIE. This product is designed to provide precision in reloading, ensuring the safety and effectiveness of your reloading process. Please read this safety instruction guide carefully to understand the proper use and safety precautions associated with this product.

## General Safety Guidelines

- Always ensure that you are using the product in a wellventilated area.
- Keep the work area clean and organized to avoid accidents.
- Store the die and accessories in a safe place, out of reach of children and pets.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling reloading materials.
- Be aware of the potential hazards associated with reloading, including the handling of primers and powders.

## Specific Safety Precautions for Use

- Ensure that the die is compatible with the specific cartridge you are using (30 Nosler).
- Always inspect the die and accessories for any signs of wear or damage before use.
- Do not exceed the recommended load limits when reloading.
- Follow the manufacturer's instructions for adjusting the decapping rod and sizing bushing.
- Avoid placing your hands near moving parts during operation.
- If you experience any malfunction or irregularity during use, cease operation immediately and inspect the equipment.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that your reloading press is securely mounted and stable.
- Install the TYPE S BUSHING NECK DIE into the press according to the manufacturer's instructions.
- Attach the sizing bushing, ensuring it is properly seated and secure.

### 2. Usage:

- Set the adjustable decapping rod to the desired position for neck sizing.
- Insert the case into the die and apply steady pressure to resize.
- If necessary, adjust the bushing to resize only a portion of the neck length.
- After resizing, remove the case and inspect it for proper sizing and any signs of damage.
- Always follow up with proper cleaning and maintenance of the die after use.

## Disposal Instructions

- Dispose of any unused or outdated reloading materials in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste.
- Contact local waste management authorities for guidance on the safe disposal of hazardous materials.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the TYPE S BUSHING NECK DIES REDDING 30 NOSLER TYPE S NECK DIE, please refer to the manufacturer's website or customer service for assistance.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective reloading experience with the TYPE S BUSHING NECK DIES REDDING 30 NOSLER TYPE S NECK DIE. Always prioritize safety and adhere to the guidelines provided in this document. Thank you for your commitment to safe reloading practices.
