

TYPE S BUSHING NECK DIES - REDDING 22 NOSLER TYPE S BUSHING NECK DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired. Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

Safety Instruction Guide for TYPE S BUSHING NECK DIES REDDING 22 NOSLER TYPE S BUSHING NECK DIE

Introduction

Thank you for choosing the TYPE S BUSHING NECK DIES REDDING 22 NOSLER TYPE S BUSHING NECK DIE. This product is designed to provide reloaders with precise control over case neck sizing and tension. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always handle the die with care to avoid injury.
- Ensure that the workspace is clean and organized to prevent accidents.
- Keep the die and all related tools out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of wear or damage before use.
- Use only compatible components when reloading ammunition.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- Use proper eye and ear protection when operating reloading equipment.
- Do not exceed the recommended load specifications for the 22 Nosler cartridge.
- Ensure that the die is securely mounted before use to prevent movement during operation.
- Avoid direct contact with any sharp edges or moving parts of the die.
- If using commercial brass, ensure it is clean and free of defects before resizing.
- Be aware of the potential for lead exposure when handling ammunition components.

Instructions for Installation and Usage

1. Installation:

- Securely mount the die in a compatible reloading press according to the manufacturer's instructions.
- Ensure that the adjustable decapping rod is positioned correctly.

2. Usage:

- Select the appropriate sizing bushing based on your desired case neck size.
- Insert the bushing into the die and adjust the decapping rod as needed.
- Place the case in the shell holder of the reloading press.
- Operate the press to resize the case neck, ensuring that the bushing selfcenters on the case neck.
- After resizing, check the dimensions of the neck to ensure they meet your specifications.
- Remove the case and repeat the process as necessary for additional cases.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local waste disposal regulations.
- Do not throw away any components in regular household trash.
- Contact local recycling centers for proper disposal methods of metal and plastic parts.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the manufacturer's contact information provided with the product packaging or on the manufacturer's website.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the TYPE S BUSHING NECK DIES REDDING 22 NOSLER TYPE S BUSHING NECK DIE. Always prioritize safety and remain informed about best practices in reloading. Thank you for your attention to these important guidelines.
