

# STANDARD BULLET SEATING MICROMETERS - #5 STANDARD BULLET SEATING MICROMETER

Redding Competition Seating Dies deliver the precision and accuracy preferred by the most discriminating handloaders. Now you can easily convert your conventional seating die to a precision micrometer seating die for use with STD (standard) bullets for precise, repeatable bullet seating depths to within 1/1000th of an inch and potential world-record accuracy. Designed for all seating dies that use a seat plug with ½-20 threads. Easily changes from one die to another, just match the number on your current seating plug to the corresponding bullet seating micrometer number. View Redding Micrometer Reference Chart [here](#).

# Safety Instruction Guide for STANDARD BULLET SEATING MICROMETERS #5

## Introduction

Thank you for choosing the STANDARD BULLET SEATING MICROMETERS #5. This product is designed to enhance your reloading experience by providing precision and accuracy for bullet seating. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always follow the manufacturer's instructions for use and maintenance.
- Ensure that the product is used in a wellventilated area.
- Keep the product out of reach of children and pets.
- Regularly inspect the product for wear or damage before use.
- Report any unsafe conditions or accidents to the relevant authorities.
- Stay informed about product recalls through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - Improper use of the micrometer can lead to inaccurate bullet seating, which may affect firearm performance.
  - Sharp edges on the micrometer may cause cuts or injuries.
- **Avoiding Hazards:**
  - Always use the micrometer according to the instructions provided.
  - Handle the micrometer with care to avoid injury.
  - Ensure that your hands are dry and clean when using the product to maintain grip and control.
- **Age Restrictions:**
  - This product is intended for use by individuals aged 18 and older. Keep out of reach of children.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that your seating die is compatible with the STANDARD BULLET SEATING MICROMETER.
- Remove the existing seating plug from your die.
- Match the seating plug number with the corresponding bullet seating micrometer number.
- Install the micrometer by screwing it into the die using the 1/20 threads until secure.

### 2. Usage:

- Set the desired bullet seating depth by turning the micrometer adjustment knob.
- Insert the bullet into the die and ensure it is seated correctly.
- Use the micrometer to measure the bullet seating depth for precision.
- Repeat the process for additional rounds as necessary.

### 3. Maintenance:

- Clean the micrometer regularly with a soft cloth to remove dust and debris.
- Store the micrometer in a protective case when not in use to prevent damage.

## Disposal Instructions

- Dispose of the product according to local regulations for nonfood items.
- Do not dispose of the product in household waste.
- Check with your local waste management facility for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries regarding safety or product usage, please refer to the manufacturer's contact details provided with your product packaging. Always ensure that you have the most current information available.

Thank you for your attention to these safety instructions. Enjoy your reloading experience with the STANDARD BULLET SEATING MICROMETERS #5!
