

# BRASS CASE GAGES - L.E. WILSON 224 VALKYRIE BRASS CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

An upgrade to the L.E. Wilson standard steel line. Brass has good corrosion resistance and an excellent surface finish, perfect for gaging your cases. One piece gage that will check overall length to indicate the need for trimming, datum to head length to assure correct headspace and to prevent over sizing.

Available for most popular rimless cases. The Cartridge Case Gage was designed with safety in mind and was invented by our founder Sam (L.E.) Wilson in 1935 after a fellow shooter approached him for help in solving a case-separation issue. The gage allows you to see just how much you are sizing back your shoulder on your cases.

## Attributes

# Safety Instruction Guide for BRASS CASE GAGES

## L.E. WILSON 224 VALKYRIE

### Introduction

Thank you for choosing the BRASS CASE GAGES L.E. WILSON 224 VALKYRIE. This product is designed for precision gaging of your brass cases, ensuring optimal performance and safety during use. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

### General Safety Guidelines

- Ensure safe use of the product by following all instructions provided in this guide.
- Be aware of potential hazards associated with improper use or handling of the gage.
- Regularly check for updates regarding product recalls through the EU's Safety Gate platform.
- Report any unsafe products or accidents to the relevant authorities immediately.
- Always use the product in accordance with its intended purpose.

### Specific Safety Precautions for Use

- Always inspect the gage before use for any signs of damage or wear.
- Use the gage in a welllit and stable environment to minimize the risk of accidents.
- Handle the gage with care to prevent injury from sharp edges or points.
- Keep the gage out of reach of children and vulnerable individuals.
- Do not use the gage for any purpose other than gaging brass cases.
- If you notice any irregularities in the gaging process, cease use immediately and consult a professional.

### Instructions for Installation and Usage

#### 1. Preparation:

- Ensure that you have a clean workspace.
- Gather all necessary materials, including the brass cases you wish to gauge.

#### 2. Using the Gage:

- Place the brass case into the gage.
- Check the overall length to determine if trimming is necessary.
- Measure the datum to head length to ensure correct headspace and prevent oversizing.
- Remove the case from the gage after measurement and store it safely.

#### 3. PostUse Care:

- Clean the gage after each use to maintain its accuracy and longevity.
- Store the gage in a protective case to prevent damage.

### Disposal Instructions

- Dispose of the gage in accordance with local regulations regarding electronic waste and metal products.
- Ensure that the gage is completely nonfunctional before disposal to prevent misuse.

## **Contact Information for Further Support**

For any questions or concerns regarding the BRASS CASE GAGES L.E. WILSON 224 VALKYRIE, please consult the manufacturer's official website or customer support channels.

Thank you for your attention to these safety instructions. Your careful handling and adherence to these guidelines will contribute to a safer and more effective experience with your gage.
