

TYPE-S ELITE BUSHING DIE SET - REDDING 6MM REMINGTON BUSHING DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

INCLUDES - Type S - Bushing Full Sizing Die Type S - Bushing Neck Sizing Die Competition Seating Die Redding Reloading Equipment has once again established a new die set based on customer feedback. The past few years you have seen the introduction of many new sets like the National Match, Master Hunter and the Premiums as a result of changing trends in the category and stated desires of the customer base. The latest, the Redding, Type S Elite die set is also a direct result of customer feedback and is available for 85 different cartridges. The Type S Elite set is comprised of a Type S Bushing Full Die, A Type S Bushing Neck Die and the unparalleled Redding Competition Seating Die. All Type-S dies use an interchangeable bushing to control neck diameter and tension to an increment of 0.001". Bushings are available in hardened steel but also are available with a TIN (Titanium Nitride) coating for even greater lubricity. This allows the handloader complete control and precision when setting the appropriate neck tension without fear of over working the brass in the case neck. These bushings are also free-floating to self-center on the case neck for a higher degree of sizing accuracy. These features provide not only an enhanced degree of control but significant improvements to consistency and accuracy of the final loaded rounds.

Attributes

- Name: [REDDING 6MM REMINGTON BUSHING DIE SET](#)

Safety Instruction Guide for TYPES ELITE BUSHING DIE SET

Introduction

Thank you for choosing the TYPES ELITE BUSHING DIE SET. This guide provides important safety instructions and guidelines to ensure the safe and effective use of this product. Please read this manual carefully before using the die set.

General Safety Guidelines

- Ensure that the die set is used only for its intended purpose, which is reloading ammunition for the specified cartridges.
- Always wear appropriate safety gear, including safety glasses, when using reloading equipment.
- Keep the die set and all reloading components out of reach of children and unauthorized users.
- Regularly inspect the die set for any signs of wear or damage before use. Do not use damaged equipment.
- Follow all local laws and regulations regarding ammunition reloading and storage.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - The die set may produce sharp edges. Handle with care to avoid cuts.
 - Improper use can lead to dangerous ammunition. Follow instructions carefully.
- **Avoid Overworking Brass:**
 - Use bushings to control neck tension without overworking the brass, which can lead to case failure.
- **SelfCentering Bushings:**
 - Ensure that bushings are freefloating to achieve higher accuracy in sizing.
- **Lubrication:**
 - Use appropriate lubricants to prevent excessive friction during resizing.

Instructions for Installation and Usage

1. Setting Up the Die Set:

- Secure the die set in a stable reloading press.
- Ensure that the press is properly mounted to avoid movement during operation.

2. Using the Bushing Full Sizing Die:

- Insert the appropriate bushing to control neck diameter.
- Adjust the die to achieve the desired neck tension.
- Lubricate the cases as recommended before sizing.

3. Using the Bushing Neck Sizing Die:

- Select the correct bushing for neck sizing.
- Follow the same lubrication guidelines as for the full sizing die.
- Ensure that the die is set to avoid overworking the brass.

4. Using the Competition Seating Die:

- Adjust the die to achieve the desired bullet seating depth.

- Ensure that the bullet is properly aligned before seating.

5. Final Checks:

- Inspect completed rounds for consistency in size and weight.
- Store completed ammunition in a safe and secure location.

Disposal Instructions

- Dispose of any broken or unusable parts in accordance with local waste management regulations.
- Do not dispose of ammunition or reloading components in regular trash. Follow hazardous waste disposal guidelines for ammunition components.

Contact Information for Further Support

For additional support, please refer to the product packaging for contact details of the manufacturer or authorized distributors. They can provide assistance and answer any questions you may have regarding the product.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the TYPES ELITE BUSHING DIE SET. Always prioritize safety and compliance with local laws and regulations. Thank you for your attention to these important guidelines.
