

TYPE-S ELITE BUSHING DIE SET - REDDING 22 NOSLER BUSHING DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

INCLUDES - Type S - Bushing Full Sizing Die Type S - Bushing Neck Sizing Die Competition Seating Die Redding Reloading Equipment has once again established a new die set based on customer feedback. The past few years you have seen the introduction of many new sets like the National Match, Master Hunter and the Premiums as a result of changing trends in the category and stated desires of the customer base. The latest, the Redding, Type S Elite die set is also a direct result of customer feedback and is available for 85 different cartridges. The Type S Elite set is comprised of a Type S Bushing Full Die, A Type S Bushing Neck Die and the unparalleled Redding Competition Seating Die. All Type-S dies use an interchangeable bushing to control neck diameter and tension to an increment of 0.001". Bushings are available in hardened steel but also are available with a TIN (Titanium Nitride) coating for even greater lubricity. This allows the handloader complete control and precision when setting the appropriate neck tension without fear of over working the brass in the case neck. These bushings are also free-floating to self-center on the case neck for a higher degree of sizing accuracy. These features provide not only an enhanced degree of control but significant improvements to consistency and accuracy of the final loaded rounds.

Attributes

TYPES ELITE BUSHING DIE SET Safety Instruction Guide

Introduction

Thank you for choosing the TYPES ELITE BUSHING DIE SET for your reloading needs. This product has been designed with safety and precision in mind. Please read this safety instruction guide carefully to ensure proper use and maintenance of your die set, and to minimize any potential risks associated with its use.

General Safety Guidelines

- Always handle reloading equipment with care and respect.
- Ensure that your work area is clean, organized, and free of distractions.
- Keep the die set out of reach of children and vulnerable individuals.
- Use this product only for its intended purpose as described in the product specifications.
- Regularly inspect the die set for any signs of wear or damage before use.
- Always wear appropriate safety gear, such as safety glasses, when reloading ammunition.

Specific Safety Precautions for Use

- **Avoid Overworking Brass:** Ensure proper neck tension is set to avoid overworking the brass, which can lead to case failure.
- **Use Appropriate Bushings:** Only use bushings that are compatible with the TYPES ELITE BUSHING DIE SET. Using incorrect bushings can result in improper sizing and potential hazards.
- **Stay Within Specifications:** Follow the manufacturer's specifications for the die set and the cartridges being used to avoid any unsafe conditions.
- **Handle with Care:** Be cautious when handling sharp components and tools associated with reloading.
- **Keep Equipment Clean:** Regularly clean your die set to prevent buildup of debris that can affect performance and safety.

Instructions for Installation and Usage

1. Setup:

- Ensure your reloading press is secure and stable.
- Install the Type S Bushing Full Die and Type S Bushing Neck Die according to the manufacturer's instructions.
- Make sure the dies are tightened properly to prevent movement during operation.

2. Using the Die Set:

- Insert the appropriate bushing into the neck sizing die before beginning the sizing process.
- Adjust the bushing to achieve the desired neck tension, ensuring it is secure.
- Follow the recommended steps for resizing and seating bullets as outlined in the die set instructions.

3. Safety Checks:

- After setup, perform a safety check to ensure all components are functioning correctly.
- Test the sizing on a few cases before proceeding with a larger batch to confirm settings.

4. Reloading Process:

- Always follow the reloading data specific to the cartridge you are using.
- Monitor the reloading process closely for any irregularities or issues.

Disposal Instructions

- Dispose of any damaged or worn components of the die set in accordance with local regulations.
- Do not dispose of the die set in regular household waste if it is deemed unsafe or unusable. Contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding the safety and use of the TYPES ELITE BUSHING DIE SET, please refer to the manufacturer's website or customer service resources. Ensure that you have the product details ready for assistance.

Conclusion

The TYPES ELITE BUSHING DIE SET is a highquality reloading tool designed to enhance your reloading experience. By following these safety instructions, you can ensure safe and effective use of the die set. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention to these guidelines, and happy reloading!
