# MEC Lead Charge Bars Safety Instructions

## Introduction

Thank you for choosing the MEC Lead Charge Bars for your single stage reloading press. These charge bars allow you to adjust your shot charge, enabling you to create the load you desire. This safety instruction guide is designed to ensure the safe use of this product in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the MEC Lead Charge Bars.

## General Safety Guidelines

- Ensure safe use of the MEC Lead Charge Bars by following all safety instructions.
- Always handle reloading equipment with care and store it in a secure location.
- Be aware of the potential risks associated with reloading and follow best practices to mitigate these risks.
- If you are new to reloading, seek guidance from experienced users or training resources.
- Always keep the product out of reach of children and vulnerable individuals.
- Regularly check for updates on product safety and recalls through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using reloading equipment.
- Ensure that the reloading press is properly secured and stable before use.
- Do not exceed the recommended shot charge limits specified for the MEC Lead Charge Bars.
- Use only compatible materials and components with your reloading press.
- Avoid distractions while reloading to maintain focus and safety.
- Never attempt to modify or alter the MEC Lead Charge Bars in any way.
- Always follow the manufacturer's instructions for installation and usage.

## Instructions for Installation and Usage

### Installation

1. Ensure that your reloading press is unplugged and in a safe state before installation.
2. Remove the existing charge bar from the reloading press.
3. Align the MEC Lead Charge Bar with the mounting points of the reloading press.
4. Secure the charge bar in place according to the manufacturer's instructions.
5. Doublecheck that the charge bar is firmly attached and does not move.

### Usage

1. Set the desired shot charge by adjusting the MEC Lead Charge Bar.
2. Ensure that all components are clean and free from debris before reloading.
3. Load the appropriate materials into the reloading press as per the manufacturer's guidelines.
4. Follow all safety precautions during the reloading process, including maintaining a clean workspace.
5. After completing the reloading process, store the MEC Lead Charge Bars and all reloading materials in a secure location.

## Disposal Instructions

- Dispose of any unused or damaged MEC Lead Charge Bars in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste. Follow local guidelines for hazardous materials disposal.
- Ensure that all components are cleaned and free from residues before disposal.

## **Contact Information for Further Support**

For any safety inquiries or further support regarding the MEC Lead Charge Bars, please contact the manufacturer or your local distributor for assistance.

Thank you for your attention to these safety instructions. Your safety and the safety of others are paramount when using reloading equipment. Always prioritize safe practices and stay informed about product safety updates.
