MEC Lead Charge Bar Progressive Press Safety Instructions

Introduction

Thank you for choosing the MEC Lead Charge Bar Progressive Press. This safety instruction guide is designed to help you use the product safely and effectively. Please read this guide carefully to understand the safety precautions and proper usage of the charge bar.

General Safety Guidelines

- Ensure that all users are familiar with the safety guidelines before using the MEC Lead Charge Bar.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling reloading equipment.
- Keep the work area clean and organized to prevent accidents.
- Store the charge bar in a safe place, away from children and pets.
- Regularly inspect the charge bar for any signs of wear or damage before use.
- Report any unsafe products or accidents to local authorities and check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Potential hazards include accidental injury from sharp edges and improper handling of lead shot.
 - Ensure that you are working in a wellventilated area to avoid inhalation of dust or fumes.
- **Avoiding Hazards:**
 - Always handle the charge bar with care to avoid cuts or injuries.
 - Do not overload the charge bar beyond its specified capacity.
 - Ensure that the charge bar is securely attached to the reloading press before use.
 - Keep fingers and loose clothing away from moving parts during operation.
- **AgeSpecific Warnings:**
 - This product is not intended for use by children. Ensure that all users are at least 18 years old and have received proper training.

Instructions for Installation and Usage

- **Installation:**
 1. Disconnect the reloading press from the power source before installing the charge bar.
 2. Remove the existing charge bar by following the manufacturer's instructions.
 3. Align the MEC Lead Charge Bar with the mounting points on the reloading press.
 4. Secure the charge bar in place using the provided screws or clamps.
 5. Ensure that the charge bar is properly aligned and tightened before proceeding.
- **Usage:**
 1. Select the desired shot charge and adjust the charge bar accordingly.
 2. Load the appropriate lead or steel shot into the charge bar.

3. Follow the reloading press instructions to begin the reloading process.
4. Monitor the operation closely, ensuring that there are no blockages or malfunctions.
5. After use, clean the charge bar to remove any residue or debris.

Disposal Instructions

- Dispose of any unused lead shot or materials in accordance with local regulations.
- Do not dispose of lead shot in regular household waste. Check with your local waste management authority for proper disposal methods.
- Ensure that any damaged or worn parts of the charge bar are disposed of safely to avoid environmental hazards.

Contact Information for Further Support

For any questions or concerns regarding the MEC Lead Charge Bar, please refer to the product manual or seek assistance from a qualified professional.
