

# MEC POWDER BUSHINGS - MEC RELOADING #10 POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at [www.mecreloaders.com](http://www.mecreloaders.com)

# MEC Powder Bushings Safety Instruction Guide

## Introduction

Thank you for choosing MEC Powder Bushings. These bushings are designed to help you adjust the powder load for your rounds, ensuring precision in your reloading process. This guide provides essential safety instructions to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always use the MEC Powder Bushings in accordance with the manufacturer's instructions.
- Ensure that you are familiar with the handling and usage of reloading equipment.
- Keep the bushings out of reach of children and vulnerable individuals.
- Regularly inspect the bushings for wear or damage before each use.
- Use a scale to check powder weights for accuracy.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Do not exceed the recommended powder load for your specific bushing.
- Avoid using bushings that show signs of wear or damage.
- Store the bushings in a cool, dry place away from direct sunlight.
- Ensure that your work area is wellventilated while reloading.
- Use personal protective equipment, such as safety glasses and gloves, when handling powders and reloading equipment.
- Familiarize yourself with the specific powder charts available on the MEC website to select the correct bushing for your needs.

## Instructions for Installation and Usage

### 1. Selecting the Bushing:

- Refer to the MEC powder charts on the MEC website to choose the appropriate bushing based on your desired powder load.

### 2. Installation:

- Ensure your reloading press is turned off and unplugged.
- Remove any existing bushing from the press.
- Carefully insert the selected MEC powder bushing into the designated slot of your reloading press.
- Secure the bushing according to the manufacturer's instructions.

### 3. Using the Bushing:

- Set your scale to zero before measuring powder.
- Pour the powder into the bushing and allow it to settle.
- Check the weight of the powder on the scale to ensure accuracy.
- If adjustments are needed, repeat the process with the appropriate bushing.

### 4. PostUse:

- After reloading, clean the bushing to remove any residue.
- Store the bushing in a safe location.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not throw the bushings in regular household waste.
- Check with local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the MEC Powder Bushings, please refer to the MEC website for contact information and further support.

By following these guidelines, you can ensure a safe and effective reloading experience with MEC Powder Bushings. Thank you for prioritizing safety and compliance.
