

# MEC POWDER BUSHINGS - MEC RELOADING #14 POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at [www.mecreloaders.com](http://www.mecreloaders.com)

# MEC Powder Bushings Safety Instruction Guide

## Introduction

Thank you for choosing MEC Powder Bushings. These bushings are designed to help you achieve accurate powder loads for your reloading needs. This safety instruction guide provides essential information to ensure the safe use of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that you read and understand all instructions before using the MEC Powder Bushings.
- Always use the bushings in accordance with the manufacturer's guidelines.
- Keep the bushings out of reach of children and vulnerable individuals.
- Regularly inspect the bushings for any signs of wear or damage before use.
- If you notice any defects or irregularities, discontinue use immediately and seek assistance.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always use a scale to verify powder weights for accuracy.
- Do not exceed the recommended powder load for your specific bushing.
- Ensure that the bushing is securely attached to the reloading press before use.
- Avoid using damaged or worn bushings, as they may not function correctly.
- Use protective eyewear when handling powders and during the reloading process.
- Follow all local laws and regulations regarding the handling and storage of reloading materials.

## Instructions for Installation and Usage

### 1. Installation:

- Select the appropriate MEC Powder Bushing based on your desired powder load.
- Ensure the reloading press is turned off and unplugged during installation.
- Carefully attach the bushing to the reloading press, ensuring it is secured tightly.
- Doublecheck that the bushing is properly aligned with the powder drop mechanism.

### 2. Usage:

- Measure the desired amount of powder using a scale before loading.
- Place the appropriate container under the powder drop to catch the powder.
- Pull the handle of the reloading press to dispense the powder into the container.
- After dispensing, check the powder weight again to ensure accuracy.
- Repeat the process for each round, adjusting the bushing as necessary for different powder loads.

## Disposal Instructions

- Dispose of any unused or expired powder in accordance with local regulations.
- Do not dispose of bushings in regular household waste. Follow local ewaste disposal guidelines.
- If the bushing is damaged or no longer usable, contact local recycling facilities for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the MEC Powder Bushings, please refer to the manufacturer's website or contact your local dealer for assistance.

Thank you for your attention to these safety guidelines. Your safety is our priority, and we hope you enjoy using MEC Powder Bushings for your reloading needs.
