

# MEC POWDER BUSHINGS - MEC RELOADING #15 POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at [www.mecreloaders.com](http://www.mecreloaders.com)

# MEC Powder Bushings Safety Instruction Guide

## Introduction

Thank you for choosing MEC Powder Bushings for your reloading needs. This guide provides important safety instructions and guidelines to ensure the safe and effective use of the #15 Powder Bushing. Please read this document carefully before using the product.

## General Safety Guidelines

- Always ensure that your workspace is clean and free of clutter before starting the reloading process.
- Use the MEC Powder Bushing only for its intended purpose as specified in this guide.
- Keep the Powder Bushing out of reach of children and vulnerable individuals.
- Regularly check for any signs of wear or damage on the Powder Bushing before use.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling powder and reloading equipment.
- Be aware of the specific hazards associated with gunpowder and follow all safety protocols for handling and storage.

## Specific Safety Precautions for Use

- Ensure that you are using the correct bushing size for your specific powder load. Refer to the MEC website for powder charts.
- Always use a scale to check powder weights for accuracy before loading.
- Do not exceed the recommended powder load for your specific ammunition.
- Avoid using damaged or worn bushings, as they may lead to inaccurate powder loads.
- Store powder and reloading components in a cool, dry place away from direct sunlight and heat sources.
- In case of accidental spillage, clean up immediately and dispose of any waste according to local regulations.

## Instructions for Installation and Usage

### 1. Installation of the Powder Bushing:

- Ensure that the reloading press is turned off and unplugged.
- Remove any existing bushing from the powder measure.
- Insert the MEC Powder Bushing into the powder measure according to the manufacturer's instructions.
- Secure the bushing in place to prevent any movement during operation.

### 2. Using the Powder Bushing:

- Set the desired powder load on the scale.
- Fill the powder measure with the appropriate powder.
- Operate the reloading press to dispense the powder through the bushing into the cartridge case.
- After dispensing, check the weight of the powder charge on the scale for accuracy.
- Repeat the process as necessary, ensuring to monitor the weight with each charge.

### 3. PostUse Instructions:

- After completing your reloading session, clean the Powder Bushing to remove any residual powder.
- Store the Powder Bushing in a safe, dry location when not in use.

## **Disposal Instructions**

- Dispose of any unused or expired gunpowder and reloading components according to local regulations.
- Do not dispose of gunpowder in regular household waste; contact local authorities for proper disposal methods.
- Ensure that all packaging materials are disposed of responsibly and in accordance with recycling guidelines.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the MEC Powder Bushings, please refer to the MEC website or contact your local MEC dealer for assistance.

By following these safety instructions, you can ensure a safe and successful reloading experience with MEC Powder Bushings. Thank you for prioritizing safety in your reloading practices.
