

# MEC POWDER BUSHINGS - MEC RELOADING #16 POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at [www.mecreloaders.com](http://www.mecreloaders.com)

# MEC Powder Bushings Safety Instruction Guide

## Introduction

Thank you for choosing the MEC Powder Bushings. These bushings are designed to help you adjust the powder load for your reloading needs. It is important to follow the safety guidelines outlined in this document to ensure safe and effective use of the product.

## General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure that the powder bushing is compatible with your reloading setup.
- Keep the bushings out of reach of children and vulnerable individuals.
- Use the bushings only for their intended purpose as specified by the manufacturer.
- Regularly inspect the bushings for any signs of wear or damage before use.
- Store the bushings in a dry, cool place to prevent deterioration.

## Specific Safety Precautions for Use

- Use a scale to check powder weights for accuracy before loading.
- Never exceed the recommended powder load as specified in the MEC powder charts.
- Avoid crosscontamination by using separate bushings for different powders.
- Do not attempt to modify the bushings in any way.
- If a bushing becomes damaged, discontinue use immediately and replace it.
- Be aware of the potential hazards associated with handling and storing gunpowder.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your reloading press is turned off and unplugged.
- Select the appropriate bushing based on the desired powder load.
- Carefully insert the bushing into the designated slot on the reloading press, ensuring it is securely in place.
- Doublecheck that the bushing is properly seated before proceeding.

### 2. Usage:

- Measure the desired amount of powder using the bushing.
- Pour the powder into the case, ensuring no spillage occurs.
- After use, clean the bushing with a soft brush to remove any residual powder.
- Store the bushing in its designated container to prevent damage.

## Disposal Instructions

- Dispose of any damaged or unusable bushings in accordance with local regulations for hazardous waste.
- Do not throw bushings in regular household trash.
- Consult local authorities for proper disposal methods.

## Contact Information for Further Support

For any safety inquiries or additional support regarding the MEC Powder Bushings, please refer to the manufacturer's website or contact the designated EUbased support center.

## Conclusion

By following these safety instructions, you can ensure a safer reloading experience with the MEC Powder Bushings. Always prioritize safety and stay informed about best practices for using reloading equipment.
