

MEC POWDER BUSHINGS - MEC RELOADING #42A POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at www.mcreloaders.com

MEC Powder Bushings Safety Instruction Guide

Introduction

Thank you for choosing MEC Powder Bushings. This guide provides important safety instructions and guidelines to ensure the safe use of your MEC Powder Bushings. Please read this document carefully before using the product.

General Safety Guidelines

- Always ensure that your workspace is clean and organized to prevent accidents.
- Use protective eyewear and gloves when handling powder and reloading equipment.
- Keep the powder bushings out of reach of children and pets to prevent accidental ingestion or misuse.
- Regularly inspect your powder bushings for signs of wear or damage before use.
- Follow all local laws and regulations regarding the use and storage of reloading materials.

Specific Safety Precautions for Use

- Ensure that the bushing you select matches the powder load specifications for your reloading needs.
- Use a scale to verify the weight of the powder to ensure accuracy in your loads.
- Avoid overfilling the bushing to prevent spillage and potential hazards.
- Do not attempt to modify or alter the powder bushings in any way.
- Store powder bushings in a cool, dry place away from direct sunlight and heat sources.

Instructions for Installation and Usage

1. Selecting the Right Bushing:

- Choose the appropriate bushing based on the desired powder load. Refer to the MEC website for powder charts that recommend specific bushings.

2. Installation:

- Ensure the reloading press is turned off and unplugged before installation.
- Remove any existing bushing from the reloading press.
- Insert the selected MEC powder bushing securely into the designated slot on the reloading press.

3. Using the Powder Bushing:

- Fill the powder reservoir with the appropriate powder.
- Adjust the bushing as needed to achieve the desired powder load.
- Use a scale to measure the load before proceeding to reload cartridges.

4. PostUse Care:

- After use, clean the powder bushing to remove any residue.
- Store the bushing in a safe location, preferably in its original packaging.

Disposal Instructions

- Dispose of any damaged or worn powder bushings in accordance with local waste disposal regulations.
- Do not dispose of powder bushings in regular household waste if they contain residual powder. Follow hazardous waste guidelines for disposal.

Contact Information for Further Support

For any inquiries or further assistance regarding MEC Powder Bushings, please refer to the contact information provided on the MEC website.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with your MEC Powder Bushings. Always prioritize safety and consult the MEC website for additional resources and information.
