

# MEC POWDER BUSHINGS - MEC RELOADING #43 POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at [www.mecreloaders.com](http://www.mecreloaders.com)

# MEC Powder Bushings Safety Instructions

## Introduction

Thank you for choosing MEC Powder Bushings. These bushings are designed to help you accurately measure and adjust the powder load for your reloading needs. To ensure safe and effective use of this product, please read and follow these safety instructions thoroughly.

## General Safety Guidelines

- Always use a scale to check powder weights for accuracy.
- Store powder bushings in a safe, dry place away from heat sources and direct sunlight.
- Keep powder bushings out of reach of children and pets.
- Regularly inspect bushings for any signs of wear or damage before use.
- Be aware of the specific powder type you are using and follow the manufacturer's guidelines for that powder.

## Specific Safety Precautions for Use

- Ensure that you are using the correct bushing size for your specific powder load.
- Avoid overloading the bushing beyond its recommended capacity.
- Do not attempt to modify or alter the bushings in any way.
- Use protective eyewear when handling powders to prevent accidental exposure.
- If you experience any allergic reactions or discomfort when handling powders, discontinue use immediately and seek medical advice.

## Instructions for Installation and Usage

### 1. Selecting the Right Bushing:

- Refer to the MEC website for powder charts that will recommend the appropriate bushing for your specific powder.
- Choose a bushing from sizes #7 thru #13 and #16 thru #38 based on your requirements.

### 2. Installation:

- Ensure that your reloading press is turned off and unplugged before installation.
- Remove any existing bushing from the press.
- Insert the selected MEC powder bushing firmly into the designated slot of your reloading press.
- Ensure that the bushing is seated correctly and secured in place.

### 3. Usage:

- Measure the powder using the selected bushing, ensuring that it is level and not overflowing.
- Carefully pour the measured powder into the casing without spilling.
- After use, clean the bushing with a soft brush or cloth to remove any residue.

## Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not throw bushings in regular household waste; check for recycling options in your area.
- Ensure that all powders and materials are disposed of safely and responsibly.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the MEC Powder Bushings, please refer to the manufacturer's website or your retailer for assistance.

By following these instructions, you can ensure a safe and effective reloading experience with MEC Powder Bushings. Always prioritize safety and accuracy to achieve the best results. Thank you for your attention to these guidelines.
