

# MEC POWDER BUSHINGS - MEC RELOADING #44A POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at [www.mecreloaders.com](http://www.mecreloaders.com)

# MEC Powder Bushings Safety Instruction Guide

## Introduction

Thank you for choosing MEC Powder Bushings. These bushings are designed to help you adjust the powder load for your reloading rounds. This guide provides essential safety instructions to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always use a scale to check powder weights for accuracy.
- Ensure that the workspace is clean and free from any distractions.
- Keep powder bushings out of reach of children and pets.
- Inspect the bushings for damage before each use.
- Only use the bushings as intended; do not modify them.
- Follow all manufacturer instructions for your reloading equipment.
- In case of any accidents or unsafe product experiences, report them to the appropriate authorities.

## Specific Safety Precautions for Use

- **Hazard Identification:**

- Improper use of powder bushings may lead to inaccurate loads, which can affect the performance of your rounds.
- Always ensure that the bushing is securely attached to the reloading press before use.

- **Avoiding Hazards:**

- Do not exceed the recommended load limits for your specific powder.
- Avoid using bushings that show signs of wear or damage.
- Use proper eye protection when handling powders and reloading equipment.

- **Audience Specific Warnings:**

- This product is not intended for use by individuals under the age of 18.
- Ensure that inexperienced users are supervised by a knowledgeable adult when using the product.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that your reloading press is turned off and unplugged before installation.
- Select the appropriate MEC powder bushing for your load.
- Align the bushing with the press and securely attach it according to the manufacturer's instructions.
- Doublecheck that the bushing is firmly in place before proceeding.

### 2. Usage:

- Measure the desired powder load using a scale.
- Slowly pour the powder into the bushing, ensuring it does not overflow.
- Check the powder weight again before proceeding with reloading.
- After use, clean the bushing with a soft brush to remove any residue.

## **Disposal Instructions**

- Dispose of any damaged or wornout bushings according to local regulations.
- Do not throw bushings in regular household waste. Check with local waste management for proper disposal methods.
- Ensure that all powders are disposed of safely and according to hazardous waste guidelines.

## **Contact Information for Further Support**

For any inquiries or further assistance regarding the MEC Powder Bushings, please refer to the MEC website or contact your local dealer. Remember to always check for the latest safety updates and product recalls.

Thank you for prioritizing safety while using MEC Powder Bushings. Happy reloading!
