

# MEC POWDER BUSHINGS - MEC RELOADING #45A POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at [www.mecreloaders.com](http://www.mecreloaders.com)

# MEC Powder Bushings Safety Instruction Guide

## Introduction

Thank you for choosing MEC Powder Bushings. These products are designed to help you adjust the powder load for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of your MEC Powder Bushings in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that all reloading equipment is used in a wellventilated area.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling powder and equipment.
- Keep powder and reloading components out of the reach of children and pets.
- Store powder bushings in a cool, dry place, away from direct sunlight and heat sources.
- Regularly inspect your powder bushings for any signs of damage or wear before use.
- Follow the manufacturer's recommendations for powder loads and bushings to avoid overloading.

## Specific Safety Precautions for Use

- Always use a scale to measure powder weights for accuracy.
- Do not exceed the recommended powder load for your specific bushing.
- Avoid mixing different types of powders unless specified by the manufacturer.
- Ensure that your reloading press is stable and secure before starting the reloading process.
- Do not attempt to modify or alter the powder bushings in any way.
- If you experience any unusual behavior during reloading, stop and inspect your equipment immediately.

## Instructions for Installation and Usage

### 1. Installation of Powder Bushing:

- Ensure that your reloading press is turned off and unplugged.
- Remove any existing bushing from the press, if applicable.
- Select the appropriate MEC powder bushing based on your desired powder load.
- Insert the new powder bushing securely into the reloading press, ensuring it is seated properly.
- Doublecheck that the bushing is firmly in place before proceeding.

### 2. Usage of Powder Bushing:

- Measure the desired amount of powder using a reliable scale.
- Pour the powder into the bushing, ensuring it is filled to the correct level as indicated in the powder chart.
- Cycle the reloading press to dispense the powder into the cartridge case.
- After use, remove any excess powder from the bushing and clean it as recommended.

## Disposal Instructions

- Dispose of any unused or expired powder according to local regulations for hazardous materials.
- Do not throw away powder bushings in regular waste. Check with local authorities for proper disposal methods.
- Recycle packaging materials where possible, following recycling guidelines in your area.

## **Contact Information for Further Support**

For further support or inquiries regarding safety or product information, please refer to the MEC website or contact your local MEC representative. Always ensure you have the latest information on product recalls and safety updates.

By following these guidelines, you can ensure a safer reloading experience with your MEC Powder Bushings. Thank you for prioritizing safety in your reloading practices.
