

# MEC POWDER BUSHINGS - MEC RELOADING #46 POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at [www.mecreloaders.com](http://www.mecreloaders.com)

# MEC Powder Bushings Safety Instruction Guide

## Introduction

Thank you for choosing MEC Powder Bushings. These bushings are designed to help you adjust the powder load for your reloading needs safely and effectively. This guide is intended to provide you with essential safety instructions and guidelines to ensure a safe and optimal experience while using our product, in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always handle powder bushings with care to avoid spills and contamination.
- Store powder bushings in a cool, dry place away from direct sunlight and moisture.
- Keep powder bushings out of reach of children and vulnerable individuals.
- Regularly check for any signs of wear or damage to the bushings before use.
- Use a scale to check powder weights for accuracy to prevent overloading or underloading your rounds.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Ensure that you are familiar with the specific powder you are using and its properties.
- Always use the correct bushing size for your intended powder load.
- Avoid using bushings that show signs of damage or wear.
- Do not exceed the recommended powder load as indicated in the MEC powder charts.
- Follow all local laws and regulations regarding the handling and use of reloading materials.
- If you experience any discomfort or reactions while using the bushings, stop use immediately and seek medical advice.

## Instructions for Installation and Usage

### 1. Selecting the Correct Bushing:

- Refer to the MEC website for powder charts to identify the recommended bushing for your specific powder.
- Choose a bushing from the available sizes (#7 through #13 and #16 through #38) based on your desired powder load.

### 2. Installing the Bushing:

- Ensure that your reloading press is clean and free from any obstructions.
- Gently insert the selected bushing into the appropriate slot on your reloading press.
- Ensure that the bushing is securely in place before proceeding.

### 3. Using the Bushing:

- Measure your powder load using a scale for accuracy.
- Carefully pour the powder into the bushing, ensuring no spills occur.
- Follow all safety protocols while handling and measuring powder.

### 4. PostUse Care:

- After use, clean the bushing to remove any residue.
- Store the bushing in its designated place, ensuring it is protected from damage.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings in accordance with local waste disposal regulations.
- Do not throw bushings in regular household waste; check for recycling options if available.
- Ensure that all powder residues are disposed of safely and in accordance with local laws regarding hazardous materials.

## **Contact Information for Further Support**

For any inquiries regarding the safety and use of MEC Powder Bushings, please refer to the MEC website or contact your local distributor. Always ensure that you have the most current safety information and guidelines.

Thank you for prioritizing safety in your reloading practices. Enjoy your experience with MEC Powder Bushings!
