

BEDDING GELS FOR RUGER MK IV - VOLQUARTSEN BEDDING GELS FOR RUGER MK IV

[Handgun Parts](#) > [Frame Parts](#) > [Frame Hardware](#) > [Frame Spacers](#)

Increase Your Ruger MK IV's Accuracy and Precision

One of today's most-popular rimfire pistols is the Ruger MK IV, which is used for training, plinking and competition by countless users. However, the upper-and-lower receiver setup can cause some loss in accuracy. To solve this problem, consumers can turn to Volquartsen MK IV Bedding Gels. The innovative nature behind Volquartsen MK IV Bedding Gels aims to eliminate any movement between the upper and lower receivers, allowing users to have a repeatable mounting point for these two halves. The adhesive-backed Technogel allows the product to mold to the frame of the gun and the contours of the upper receiver, allowing for perfect lockup. Each package of Volquartsen Bedding Gels includes two gels. The compound will work with all Ruger MK IV and 22/45 MK IV pistols.

Safety Instruction Guide for Volquartsen Bedding Gels for Ruger MK IV

Introduction

Thank you for choosing Volquartsen Bedding Gels for your Ruger MK IV. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this guide carefully before using the bedding gels.

General Safety Guidelines

- Ensure that all users read and understand these safety instructions before using the product.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for updates on safety recalls and product alerts via the EU's Safety Gate platform.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Wear protective gloves when handling the bedding gels to avoid skin irritation.
- Avoid contact with eyes. In case of contact, rinse immediately with plenty of water and seek medical attention if irritation persists.
- Use the product in a wellventilated area to minimize inhalation of any fumes.
- Do not use the product if it appears damaged or if the packaging is compromised.
- Store the product in a cool, dry place away from direct sunlight and heat sources.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the Ruger MK IV is unloaded and safe to handle before beginning the installation.
- Clean the surfaces of the upper and lower receivers where the bedding gels will be applied. Remove any dirt, oil, or debris to ensure proper adhesion.

2. Application:

- Remove the adhesive backing from the bedding gel.
- Carefully position the gel on the desired area of the upper receiver, ensuring it aligns properly.
- Press firmly to ensure full contact and adhesion to the surface.

3. Mounting:

- Once the gels are securely in place, reassemble the upper and lower receivers.
- Check for proper alignment and fit. Ensure that the components are locked together without excessive movement.

4. Testing:

- Conduct a function check to ensure that the firearm operates correctly after installation.
- If any issues arise, disassemble the components and inspect the bedding gels for proper placement and adhesion.

5. Maintenance:

- Periodically inspect the bedding gels for wear or damage. Replace if necessary to maintain optimal

performance.

Disposal Instructions

- Dispose of any unused or expired bedding gels in accordance with local regulations.
- Do not dispose of the product in household waste. Check for local hazardous waste disposal guidelines.

Contact Information for Further Support

For any inquiries or concerns regarding the Volquartsen Bedding Gels, please refer to the manufacturer's website or customer service resources for assistance.

Thank you for your attention to these safety instructions. Enjoy your enhanced shooting experience with the Volquartsen Bedding Gels for your Ruger MK IV.
