N36 Neoprene Gloves Safety Instruction Guide

Introduction

Thank you for choosing the N36 Neoprene Gloves. These gloves are designed to provide protection against oils, acids, greases, solvents, and caustics. This guide contains important safety instructions to ensure the safe use of the gloves, as well as information on disposal and support.

General Safety Guidelines

- Ensure that the gloves are suitable for the tasks you are performing.
- Always inspect the gloves for any signs of damage before use.
- Do not use the gloves if they are torn, punctured, or otherwise compromised.
- Keep the gloves away from children and vulnerable individuals.
- Follow all relevant safety guidelines and regulations applicable to your work environment.

Specific Safety Precautions for Use

- **Chemical Exposure:**
 - These gloves are designed to resist certain chemicals. However, always check the compatibility of the gloves with the specific chemicals you will be handling.
- **Heat and Flame:**
 - These gloves are not designed for use with hot materials or open flames. Do not use them in situations where heat exposure is likely.
- **Slippery Surfaces:**
 - The nonslip hand area provides better grip; however, always exercise caution on slippery surfaces.
- **Prolonged Use:**
 - If you experience any discomfort or skin irritation while wearing the gloves, remove them immediately and consult a medical professional if necessary.

Instructions for Installation and Usage

1. Wearing the Gloves:

- Ensure your hands are clean and dry before putting on the gloves.
- Slip the gloves onto your hands, ensuring a snug fit.
- Adjust the gloves to ensure they cover your wrists adequately.

2. During Use:

- Use the gloves for their intended purpose only.
- Avoid touching your face or eyes while wearing the gloves.
- If you need to remove the gloves, do so carefully to avoid skin contact with any contaminants.

3. Removing the Gloves:

- Grasp the outside of one glove at the wrist and peel it off, turning it inside out as you remove it.
- Hold the removed glove in the other gloved hand and repeat the process for the second glove.
- Dispose of the gloves properly as per disposal instructions below.

Disposal Instructions

- Dispose of the gloves in accordance with local regulations for hazardous waste.
- Do not dispose of the gloves in regular household waste if they have been contaminated with harmful

substances.

- Ensure that the gloves are completely removed and contained before disposal to avoid any risk of exposure.

Contact Information for Further Support

For any questions or concerns regarding the N36 Neoprene Gloves, including safety inquiries or product recalls, please reach out to the designated EU contact point for assistance.

Conclusion

Your safety is our priority. By following these guidelines, you can ensure the safe and effective use of the N36 Neoprene Gloves. Always stay informed about product recalls and safety updates through the EU's Safety Gate platform. Thank you for prioritizing safety in your work.
