

Cantilever Ring 30mm Offset Absolute CW

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Mount Sets](#)

Provides extra rail room for rear Back Up Iron Sights (BUIS) when using the StrikeFire red dot along with the VMX-3T magnifier. The cantilever ring will move the StrikeFire forward about one inch. Will work with most 30mm red dot sights. Positions red dot sight at either an absolute co-witness height or a lower 1/3 co-witness height.

VORTEX OPTICS Cantilever Ring 30mm Offset

Safety Instructions

Introduction

Thank you for choosing the VORTEX OPTICS Cantilever Ring 30mm Offset. This product is designed to provide enhanced flexibility and usability for your optical equipment. Please read this safety instruction guide carefully to ensure safe usage and compliance with EU General Product Safety Regulations (GPSR).

General Safety Guidelines

- Ensure that all components are compatible with your optical equipment before installation.
- Always inspect the cantilever ring for any damage or defects before use.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose as specified in the instructions.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Do not exceed the recommended weight limit for mounting accessories.
- Ensure that the cantilever ring is securely fastened to prevent accidental detachment.
- Avoid using the product in extreme weather conditions, which may affect its performance.
- Regularly check for signs of wear or damage, especially after heavy use.
- If using with a magnifier or red dot sight, ensure proper alignment to avoid misalignment or damage.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools for installation, including a screwdriver and any required mounting hardware.
- Ensure that your optical sight and rail are clean and free of debris.

2. Installation:

- Align the cantilever ring with the mounting rail on your firearm.
- Slide the ring onto the rail until it is positioned at the desired location.
- Secure the cantilever ring by tightening the mounting screws evenly. Do not overtighten, as this may damage the rail or ring.
- Ensure that the StrikeFire red dot sight is properly mounted onto the cantilever ring according to the manufacturer's instructions.

3. Usage:

- After installation, check the alignment of the red dot sight and magnifier.
- Adjust the position of the red dot sight if necessary to achieve the desired cowitness height.
- Test the setup by aiming at a target to ensure proper functionality.

4. Maintenance:

- Regularly clean the cantilever ring and optical equipment to maintain optimal performance.
- Store the product in a cool, dry place when not in use.

Disposal Instructions

- Dispose of the cantilever ring and any packaging materials in accordance with local regulations.
- Do not dispose of the product in household waste. Check for recycling options or designated disposal facilities for electronic products.

Contact Information for Further Support

- For any inquiries or concerns regarding the VORTEX OPTICS Cantilever Ring 30mm Offset, please refer to the manufacturer's contact information provided with the product packaging.

By following these safety instructions, you can ensure a safe and effective experience with your VORTEX OPTICS Cantilever Ring 30mm Offset. Thank you for your attention to safety!
