

Pro-GT Tripod

[Optics & Mounting](#) > [Spotting Scopes & Accessories](#) > [Spotting Scope Accessories](#)

The Vortex Pro GT Tripod provides a balanced, solid platform for all your optical gear and is built to withstand the abuses of your roughest treks. A three-way pan/tilt head on the Vortex Pro GT Tripod provides you with stable support while you scan a region, then locks firmly in place for precision viewing.

Sturdy, aluminum legs on the Vortex Pro GT Tripod adjust quickly and stay securely in place thanks to the heavy-duty lever locks. Rubber feet ensure the legs stay firmly in place, even on rain slick surfaces.

Three section, anodized aluminum legs

Central balance hook

Adjusts from 23.9" to 67.1" high

Weighs 4.4 lbs

Vortex Optics ProGT Tripod Safety Instructions

Introduction

Thank you for choosing the Vortex Optics ProGT Tripod. This product is designed to provide a stable platform for your optical gear during various outdoor activities. To ensure your safety and the longevity of your tripod, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always inspect the tripod before use. Look for any signs of damage or wear.
- Use the tripod only for its intended purpose. It is designed for supporting optical equipment and should not be used for any other purpose.
- Ensure that the tripod is set up on a stable, level surface to prevent tipping.
- Keep the tripod away from children and pets to avoid accidents.
- Do not exceed the weight limit of the tripod, which is determined by the manufacturer. Check the specifications for maximum load capacity.
- Be cautious when adjusting the legs or head of the tripod. Use both hands and ensure your fingers are clear of any moving parts.
- Avoid using the tripod in extreme weather conditions, such as high winds or heavy rain, unless it is specifically rated for such conditions.

Specific Safety Precautions for Use

- Use the rubber feet to provide better grip on various surfaces. Ensure they are clean and free from debris before use.
- When adjusting the height of the tripod, make sure the legs are locked securely in place to prevent accidental collapse.
- If using the tripod on uneven terrain, adjust the legs accordingly to maintain stability.
- When transporting the tripod, ensure it is collapsed and secured to prevent damage or injury.
- Always carry the tripod by the main body, not by the head or legs.

Instructions for Installation and Usage

1. Setting Up the Tripod:

- Unpack the tripod from its carrying case.
- Extend the legs by loosening the lever locks and pulling the legs to the desired height. Lock them securely in place.
- If necessary, use the central balance hook to add weight for stability.

2. Attaching Optical Equipment:

- Ensure the tripod head is locked in the desired position.
- Attach your optical equipment securely to the tripod head, following the manufacturer's instructions for your specific device.
- Doublecheck that the equipment is firmly attached before use.

3. Adjusting the Tripod:

- Use the threeway pan/tilt head to adjust the angle of your optical equipment as needed.
- Lock the head firmly in place once you have the desired position to ensure stability during use.

4. Collapsing the Tripod:

- When finished, carefully remove the optical equipment from the tripod.
- Loosen the leg locks and collapse each leg back to its shortest length.
- Ensure the tripod is clean and dry before storing it in its carrying case.

Disposal Instructions

- Dispose of the tripod in accordance with local regulations for waste disposal.
- If the tripod is no longer usable, consider recycling materials where possible.
- Do not dispose of the tripod in regular household waste if it contains materials that can be recycled.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Vortex Optics ProGT Tripod, please refer to the manufacturer's website or customer service resources.

By following these safety instructions, you can ensure a safe and enjoyable experience with your Vortex Optics ProGT Tripod.
