

Marlin Dark 44 Mag Comet Brake Reduces Recoil - Marlin Dark 44 Mag Brake (Ilion, NY barrel stamp)

[Rifle Parts](#) > [Muzzle Devices](#)

MUZZLE BRAKE for Marlin Dark Rifles – .44 Mag

Compatibility:

Designed for Marlin Dark 1895 (original Remington production, pre-2020) in .44 Mag. Not universally compatible — specifically engineered for Marlin-Remington Dark Series barrels with .746" OD and .578 x 28 TPI threading.

Product Features:

Recoil Reduction: Decreases felt recoil and muzzle flash by approximately 25%.

High-Quality Construction: Made from durable, stress-resistant 4140 steel with a salt bath black nitride finish.

Precision Fit: Custom-made for Marlin Dark rifles that match the listed specifications.

Easy Installation: Simply hand-tighten with Blue Loctite (not red). No torque specs or indexing required.

Technical Specifications:

Length: 1.65" (42 mm)

Diameter: .746" (18.9 mm)

Thread: .578 x 28 TPI

Material: 4140 steel, black nitride

Function: Reduces recoil and muzzle flash by ~25%

Marlin Dark 44 Mag Comet Brake Safety Instructions

Introduction

Thank you for choosing the Marlin Dark 44 Mag Comet Brake. This product is designed to enhance your shooting experience by reducing recoil and muzzle flash. To ensure your safety and the proper functioning of the product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always treat firearms and related accessories as if they are loaded.
- Ensure that you are familiar with the operation of your firearm before using this muzzle brake.
- Use this product only on compatible Marlin Dark rifles (specifically, the Marlin Dark 1895 in .44 Mag).
- Inspect the muzzle brake for any damage or wear before installation.
- Always wear appropriate safety gear, including eye and ear protection, when shooting.
- Keep the product out of reach of children and unauthorized users.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before installing or removing the muzzle brake.
- Do not exceed the manufacturer's recommended specifications for your firearm.
- Avoid using this product with any other caliber or model other than those specified.
- Be aware of your surroundings and ensure a safe shooting environment.
- Do not use the muzzle brake if it shows signs of damage or improper fitting.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather necessary tools: Blue Loctite (not red) for securing the brake.

2. Installation:

- Align the muzzle brake with the threaded end of the barrel.
- Handtighten the muzzle brake onto the barrel using the .578 x 28 TPI threading.
- Apply a small amount of Blue Loctite to secure the brake.
- Do not use excessive force; no torque specifications or indexing are required.

3. Usage:

- Once installed, the muzzle brake will reduce felt recoil and muzzle flash by approximately 25%.
- Regularly inspect the muzzle brake for any signs of wear or damage during use.

4. PostUse:

- After shooting, clean the muzzle brake and the firearm according to the manufacturer's recommendations.
- Store the muzzle brake in a safe location away from children.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Check with local authorities for proper disposal methods for metal products.

Contact Information for Further Support

For any questions or concerns regarding the Marlin Dark 44 Mag Comet Brake, please refer to the manufacturer's contact information provided in the product packaging or on the official website.

Thank you for following these safety instructions. Your adherence to these guidelines will help ensure a safe and enjoyable shooting experience.
